

250 SERIES

250 AFP

250 mm Drum-Style Hydraulic-Feed Chippers

The largest PTO-driven unit in our range is built to meet all your chipping requirements. The hydraulic lift cylinder gives the operator the ultimate control-improving efficiency by crushing side branches and allowing the top feed roller to climb onto large logs with ease. The 250 Series with an ultra wide in-feed opening and extremely powerful PARKER hydraulic motors makes this unit a must have when chipping brush with a lot of side branches. A wheel-kit can be supplied. The foldable feed tray comes standard and assists the operator in placing large amounts of small material into the machine and creating a safer working distance.

APPLICATION Fruit Farming | Tree Felling | Alien Clearing

SERIES FEATURES

- PARKER Hydraulics
- Hydraulic Lift Cylinder
- Reversing Auto Feed
- Forward / Reverse Bar
- Foldable Feed Tray
- Replaceable Wear Strips
- Swivel Discharge Chute
- 4-Sided Anvil
- Sealed Bearings

250 AFE

250 mm Drum-Style Hydraulic-Feed Chippers

The perfect unit for tree-fellers, road contractors and plant hire companies. Large enough to be classified as a high production unit, yet small enough to be moved around on site by hand. The hydraulic lift cylinder gives the operator the ultimate control - improving efficiency by crushing side branches and allowing the top feed roller to climb onto large logs with ease. Toolbox is added to carry the necessary tools and a spare wheel is included for peace of mind when on site.
