

APPLICATION Alien Clearing | Citrus Farming | Contractors | Municipalities | Landscaping | Tree Felling

WOOD CHIPPER FEATURES

- 65Hp Kirloskar diesel engine
- Pre-cleaner bowl on air filtration added to reduce dust intake
- 11.5" Pilotless HD Clutch
- Electronic reversing auto-feed
- Large & powerful hydraulic infeed rollers, enhancing efficiency
- Climax coupler system
- Fans on drum sides for increased discharge velocity
- Lock-pin on drum for easy blade maintenance
- Double hydraulic filtration system to enhance component life
- Hydraulic Lift & Crush feature
- Clip-on belt-cover allows for easy inspection & maintenance
- Large 100 liter steel fuel & hydraulic tanks
- Also available with a 85 Hp Perkins diesel engine *

250mm Drum-Style Hydraulic-Feed Chippers

The perfect unit for tree-fellers, road contractors and plant hire companies. Large enough to be classified as a high production unit, yet small enough to be moved around on site. Fans added on both sides of the drum create the ultimate discharge velocity to compact chips at the back of a truck so that you can load the most material possible. The hydraulic lift & crush feature gives the operator the ultimate control by improving efficiency by crushing side branches and allowing the top feed roller to climb onto large logs with ease. The toolbox is added to carry the necessary tools and a spare wheel is included for peace of mind when on site. The 4250 Series with an ultra wide in-feed opening and ultra powerful Parker hydraulic motors makes this unit a must-have when chipping large amounts of brush with lots of side branches. The foldable feed tray comes standard and assists the operator in placing large amounts of small material into the machine and creating a safer working distance for feeders and the operator. The clip-on belt-cover saves time on maintenance and the lock-pin on the drum ensures easy blade maintenance. This unit is built standard with a 65Hp Kirloskar air-cooled diesel engine, which is a real 'die hard'. The M4250AFE is also available on request with a 85Hp Perkins* water-cooled 4 cylinder diesel engine.

TECHNICAL DATA

In-feed opening	315mm x 280mm
Length	4630mm
Width	2130mm
Height	2695mm
Weight	2360kg
Engine options	65Hp Kirloskar or 85Hp Perkins *
Fuel type	Diesel
Diesel tank size	100 litres
Hydraulic tank size	100 litres
