

APPLICATION Citrus Farming | Compost Plants | Tree Fellers | Rental Contractors | Municipalities

WOOD CHIPPER FEATURES

- 100Hp Perkins Diesel Engine
- 11" Pilotless HD Clutch
- Parker hydraulic motors
- Hydraulic Lift & Crush feature
- Electronic reversing auto-feed
- Timken drum bearings
- Fans on drum sides for increased discharge velocity
- Large diameter drum
- Climax Coupler system
- Clip-on belt-cover allows for easy inspection
- Large fuel tank
- SABS Roadworthy 3500kg Double-axle trailer
- Replaceable wear strips

300mm Drum-style Hydraulic-Feed Chippers

The TOMCAT Model 4300 AFE wood chipper is designed with the serious tree-feller, large scale fruit farmer and rental contractor in mind. When you need to get the job done in a short time frame the brand new M4300AFE should be your first choice. The large feed rollers and uniquely shaped hopper enhances the chippers' ability to efficiently pull trees towards the chipping drum - reducing prep-time of material with side branches which in turn saves money as labor costs and chainsaw costs is reduced. The large diameter chipping drum with 4 staggered blades are perfectly matched with the 100Hp Perkins 4 cylinder diesel engine - ensuring unrivaled daily production and reduced running costs per ton - makes this the most powerful 300mm machine on the market!

A pre-cleaner bowl on the air filtration system is added to reduce dust exposure to the engine, large diameter in-feed rollers climbs easy onto larger branches, powerful chip discharge, 80 litre hydraulic tank with unique double filtration system to enhance lifespan of hydraulic components and a lock-pin on the drum for easy blade maintenance.

OPTIONAL EXTRAS

- Safety cut out switches on side of in-feed hopper *
- Hydraulic winch *
- Electronic bump bar *
- 40kmph Agricultural trailer *

TECHNICAL DATA

In-feed opening	450mm x 325mm
Length	4750mm
Width	2080mm
Height	2800mm
Weight	3100kg
Engine	100Hp Perkins
Fuel type	Diesel
Diesel tank size	80 litres
Hydraulic tank size	80 litres
